⚖ Compare provider quality for better decisions

Once you're a member and registered on the Health Net website, we offer the Hospital Advisor comparison tool, giving you information that can help you choose high quality hospitals in our Health Net networks. Hospital Advisor gives you details about which hospitals have the most experience with specific conditions and procedures and other key information like patient experience ratings and safety of care. This tool includes access to the national Leapfrog Hospital Survey, a national leader in information about hospital quality and safety. You also get the Leapfrog Hospital Safety Score, which assigns hospitals an easy-to-use letter grade to indicate the overall safety of the hospital for patients.
