

2024 Producer Performance Guide

**All Markets Small Group Medical Base
and Specialty Products Commissions**

Welcome

Dear Producer,

We are pleased to present UnitedHealthcare's 2024 Producer Performance Guide for all markets small group medical base and specialty products commissions. Please keep this guide and refer to it whenever you have a commission question for states other than where you reside.

There are two sections that will help you sell UnitedHealthcare and build your relationship with your clients:

Specialty products commission

Provides details on Small Business and Key Account specialty product base commissions, including Dental, Vision, AD&D, Life, Disability and more.

Medical base commission

Outlines our competitive base commission.

As you read through the guide, we think you'll see that these commissions offer fair compensation for offering UnitedHealthcare to your clients. We look forward to strengthening our relationship and working together to grow our mutual business.

Thank you,

UnitedHealthcare

Case size designations

Many of the commission and bonus programs in this guide apply to specific case size segments (for example, “groups with up to 50 employees” or “51 or more employees”). In most situations, these labels will coincide with the actual number of employees in the group that are eligible (but not necessarily enrolled) for coverage. However, the actual case size segment designation for commission and bonus program purposes will be made in accordance with state and federal regulations and may be based on the employee count at some point in time, the average number of employees over some period of time or other factors such as the rating formula used, underwriting rules or operating system indicators. That means the specific assignment of any group to one of these classifications may not reflect the actual number of employees at a specified time. Once classified, groups do not automatically change classification for these purposes if their employee count grows or shrinks. That means that some groups with (for example) more than 50 employees will be included in the “up to 50 employees” commission and bonus programs, and some groups with fewer than 51 eligible employees will not. We reserve the right to classify any group in any of these designations for these purposes according to our rules and in accordance with state and federal regulations, regardless of the group’s actual enrollment or eligible employee count.

Medical base commissions

for fully insured groups with up to 50 eligible employees

This commission schedule is effective for new UnitedHealthcare fully insured medical groups with up to 50 eligible employees* in Alabama with effective dates on or after January 1, 2024, and existing UnitedHealthcare fully insured medical groups in the same area on their first renewal on or after January 1, 2024. The number of enrolled medical employees in the case determines the commission rate paid per employee.

| Medical case size | First-year commissions per enrolled employee per month | Renewal commissions per enrolled employee per month |
|------------------------------|--|---|
| 1 to 3 enrolled employees | \$3 | \$3 |
| 4 or more enrolled employees | \$24 | \$19 |

- “First year” commissions are paid for period from the original effective date up to the first renewal date. The payment tier used for new groups is established using the enrolled medical employee count at the time of initial enrollment as determined by us. This commission rate will be used for the entire plan year regardless of any changes to the enrolled medical employee count that occur during the year.
- The “Renewal” commission rates are paid for all months starting on and subsequent to the first renewal date. The payment tier used for renewing cases will be established using the enrolled medical employee count at a time determined by us, usually reflecting the billed employee count for the first month of the new contract period. The new commission rate will be used for the entire renewal period regardless of any changes to the enrolled employee count that occur during the renewal period.
- Changes in the number of sub-groups in multiple-site or multi-segment affiliated groups may trigger a recalculation of the commission rate prior to the next renewal.

How to calculate UnitedHealthcare monthly commissions

The monthly commission payment is calculated by multiplying the actual number of enrolled medical employees in the case during any month by the appropriate commission rate from the commission table. For example, a first-year case with an effective date in March with an initial enrollment of 22 enrolled employees will be paid \$24 per enrolled employee per month for March, which equals \$528. If the actual enrollment in June is 26 employees, the commissions for June will be 26 multiplied by \$24, which equals \$624.

Commissions vary by the group’s location. Please contact your UnitedHealthcare sales office for base commission schedules in other areas. Some medical products may have a specified commission schedule that replaces and supersedes this schedule.

All UnitedHealthcare commissions and bonus programs are subject to the Agent/Agency Agreement and the policies contained in other sections of this guide. Please refer to that information for complete guidelines related to our producer compensation programs.

*Classification as a group of “up to 50 employees” is determined by us considering a number of factors. Please see “Case Size Designations” on page 3 for details.

Medical benefits

Medical base commissions

for fully insured groups with up to 100 eligible employees

This commission schedule is effective for new fully insured medical groups with up to 100 eligible employees* in California with effective dates on or after January 1, 2024.

| Medical case size | Commissions |
|---|--------------------|
| All new groups with up to 100 eligible employees ⁺ | 5% of paid premium |

How to calculate monthly commissions

The monthly commission payment is calculated by multiplying paid premium for the month by the percentage indicated. For example, if the paid premium for a month for a group is \$10,000, the commissions for that month will be 5% times \$10,000, or \$500.

Commission schedules in other states may be different than the above schedule. Please contact your UnitedHealthcare sales office for base commission schedules in other areas. Some medical products may have a specified commission schedule that replaces and supersedes this schedule.

- The “Renewal” commission rates are paid for all months starting on and subsequent to the first renewal date. The payment tier used for renewing cases will be established using the enrolled medical employee count at a time determined by us, usually reflecting the billed employee count for the first month of the new contract period. The new commission rate will be used for the entire renewal period regardless of any changes to the enrolled employee count that occur during the renewal period.
- Changes in the number of sub-groups in multiple-site or multi-segment affiliated groups may trigger a recalculation of the commission rate prior to the next renewal.

How to calculate UnitedHealthcare monthly commissions

The monthly commission payment is calculated by multiplying the actual number of enrolled medical employees in the case during any month by the appropriate commission rate from the commission table. For example, a first-year case with an effective date in March with an initial enrollment of 20 enrolled employees will be paid \$32 per enrolled employee per month, which equals \$640. If the actual enrollment in June is 22 employees, the commissions for June will be 22 multiplied by \$32, which equals \$704.

***This commission schedule applies to all the counties in Florida except Broward, Indian River, Martin, Miami-Dade, Monroe, Palm Beach and St. Lucie Counties.**

Medical base commissions for fully insured groups with up to 50 eligible employees

This commission schedule is effective for new fully insured medical groups with up to 50 eligible employees* in Indiana* with effective dates on or after January 1, 2024, and existing fully insured groups in Indiana* on their first renewal on or after January 1, 2024.

| Enrolled medical employees in a group in the current month | Commission for each enrolled medical employee in the assigned row in that month |
|--|---|
| For the first 2 enrolled medical employees in the month | \$8 |
| For the next 2 enrolled medical employees in the month | \$10 |
| For the next 10 enrolled medical employees in the month | \$35 |
| For the remaining enrolled medical employees in the month | \$22 |

How to calculate monthly commissions

The monthly commission payment is calculated by allocating the actual number of enrolled medical employees in a group in the month to the commission table. Enrolled employees are assigned to the table starting with the first row in the commission table up to the number of employees indicated in the row. Any excess employees are assigned to the subsequent rows in the table as indicated and will be paid the commission rates in those rows.

For example, a case with an actual enrollment of 30 enrolled employees in a specified month will have 2 enrolled employees in the first row, 2 in the second row, 10 in the third row and 16 in the fourth row. The commissions on the case for that month are \$738, which is the sum of: 2 multiplied by \$8, plus 2 multiplied by \$10, plus 10 multiplied by \$35, plus 16 multiplied by \$22. This process is repeated every month the case is active using the actual enrolled medical count for the month.

- The payment tier used for new groups is established using the enrolled medical employee count at the time of initial enrollment as determined by us. This commission rate will be used for the entire plan year regardless of any changes to the enrolled medical employee count that occur during the year. The tier for renewing cases will be established using the enrolled medical employee count at a time determined by us, usually reflecting the billed employee count for the first month of the new contract period. The new commission rate will be used for the entire renewal period regardless of any changes to the enrolled employee count that occur during the renewal period.

How to calculate UnitedHealthcare monthly commissions

The monthly commission payment is calculated by multiplying the actual number of enrolled medical employees in the case during any month by the appropriate commission rate from the commission table. For example, a first-year case with an effective date in March with an initial enrollment of 22 enrolled employees will be paid \$34 per enrolled employee per month for March, which equals \$748. If the actual enrollment in April is 26 employees, the commissions for April will be 26 multiplied by \$32, which equals \$832.

Commissions vary by the group's location. Please contact your UnitedHealthcare sales office for base commission schedules in other areas. Some medical products may have a specified commission schedule that replaces and supersedes this schedule. All UnitedHealthcare commissions and bonus programs are subject to the Agent/Agency Agreement and the policies contained in other sections of this guide. Please refer to that information for complete guidelines related to our producer compensation programs.

- The “Renewal” commission rates are paid for all months starting on and subsequent to the first renewal date. The payment tier used for renewing cases will be established using the enrolled medical employee count at a time determined by us, usually reflecting the billed employee count for the first month of the new contract period. The new commission rate will be used for the entire renewal period regardless of any changes to the enrolled employee count that occur during the renewal period.
- Changes in the number of sub-groups in multiple-site or multi-segment affiliated groups may trigger a recalculation of the commission rate prior to the next renewal.

How to calculate monthly commissions

The monthly commission payment is calculated by multiplying the actual number of enrolled medical employees in the case during any month by the appropriate commission rate from the commission table. For example, a first-year case with an effective date in January with an initial enrollment of 20 enrolled employees will be paid \$40 per enrolled employee per month, which equals \$800 for the first month. If the actual enrollment in June is 22 employees, the commissions for June will be 22 multiplied by \$40, which equals \$880.

Commissions vary by the group’s location. Please contact your UnitedHealthcare sales office for base commission schedules in other areas. Some medical products may have a specified commission schedule that replaces and supersedes this schedule.

All UnitedHealthcare commissions and bonus programs are subject to the Agent/Agency Agreement and the policies contained in other sections of this guide. Please refer to that information for complete guidelines related to our producer compensation programs.

*Classification as a group of “up to 50 employees” is determined by us considering a number of factors. Please see “Case Size Designations” on page 3 for details.

- Changes in the number of sub-groups in multiple-site or multi-segment affiliated groups may trigger a recalculation of the commission rate prior to the next renewal.

How to calculate UnitedHealthcare monthly commissions

The monthly commission payment is calculated by multiplying the actual number of enrolled medical employees in the case during any month by the appropriate commission rate from the commission table. For example, a first-year case with an effective date in January with an initial enrollment of 20 enrolled employees will be paid \$40 per enrolled employee, which equals \$800. If the actual enrollment in June is 22 employees, the commissions for June will be 22 multiplied by \$40, which equals \$880.

***This commission schedule applies to all of Virginia except these counties and cities in Southwest Virginia:** Bland, Buchanan, Carroll, Dickenson, Grayson, Lee, Russell, Scott, Smyth, Tazewell, Washington, Wise and Wythe Counties, plus the independent cities of Bristol, Galax and Norton.

Commissions vary by the group’s location. Please contact your UnitedHealthcare sales office for base commission schedules in other areas. Some medical products may have a specified commission schedule that replaces and supersedes this schedule.

All UnitedHealthcare commissions and bonus programs are subject to the Agent/Agency Agreement and the policies contained in other sections of this guide. Please refer to that information for complete guidelines related to our producer compensation programs.

*Classification as a group of “up to 50 employees” is determined by us considering a number of factors. Please see “Case Size Designations” on page 3 for details.

Medical base commissions

for fully insured groups with up to 50 eligible employees

This commission schedule is effective for new fully insured medical groups with up to 50 eligible employees* in Washington with effective dates on or after January 1, 2024, and existing fully insured medical groups in Washington on their first renewal on or after January 1, 2024. The number of enrolled medical employees in the case determines the commission rate paid per employee.

| Medical case size | First-year payment per enrolled employee per month | Renewal payment per enrolled employee per month |
|------------------------------|--|---|
| Up to 4 enrolled employees | \$3 | \$3 |
| 5 or more enrolled employees | \$35 | \$30 |

- “First year” commissions are paid for period from the original effective date up to the first renewal date. The payment tier used for new groups is established using the enrolled medical employee count at the time of initial enrollment as determined by us. This commission rate will be used for the entire plan year regardless of any changes to the enrolled medical employee count that occur during the year.
- The “Renewal” commission rates are paid for all months starting on and subsequent to the first renewal date. The payment tier used for renewing cases will be established using the enrolled medical employee count at a time determined by us, usually reflecting the billed employee count for the first month of the new contract period. The new commission rate will be used for the entire renewal period regardless of any changes to the enrolled employee count that occur during the renewal period.
- Changes in the number of sub-groups in multiple-site or multi-segment affiliated groups may trigger a recalculation of the commission rate prior to the next renewal.
