

# Nationwide network access

for Connecticut Harvard Pilgrim  
PPO members

**As part of our commitment to offer products with great value to employers and their employees,** Harvard Pilgrim is pleased to offer PPO coverage to Connecticut employer customers that includes Harvard Pilgrim's high quality New England provider network as well as an extensive network of UnitedHealthcare health professionals and hospitals outside of New England.

When employees who have PPO coverage are outside of Massachusetts, Maine, New Hampshire, Connecticut, Rhode Island and Vermont, they may receive covered services from hundreds of thousands of UnitedHealthcare providers at the in-network benefit level.

Of course, throughout New England, PPO members may receive care for covered services at the in-network benefit level from Harvard Pilgrim participating providers and at the out-of-network benefit level from almost any medical provider.

Harvard Pilgrim's member ID cards for all commercial products include information that helps providers serve members for covered services when they are outside of New England.
