A new network of coordinated care

Our goal is to provide members with local care where they need it most. So we've joined together with key health systems in the Southern California region. Aetna Whole Health Southern California network HMO plans offer a coordinated health experience that can save members up to 25 percent compared to broad network Aetna® HMO plans*. It gives them wider access to a regional network of high-performing health care provider groups right in their neighborhood. So wherever they are, members will know care is close to home.
